Bundled Hosted Online MSDS and Training Management Solution Special Offer

ATLANTA, GA.—IMTEK is proud to offer an innovative Online Material Safety Data Sheet (MSDS) & Training Management Bundled Solution for the first time in the industry. For a limited time, when you subscribe to the MSDS Management Solution, you get the Online Safety Training Management Solution with over 50 interactive safety and environmental courses absolutely FREE! This is an innovative solution that is robust enough to handle the complexities of managing many MSDS documents and training globally in a secure environment as well as simple, intuitive and user friendly.

Hosted Online MSDS Management

This robust user friendly Material Safety Data Sheet (MSDS) Management Solution allows you to store, retrieve and update thousands of MSDSs quickly and easily in a highly secure centrally managed web based solution to ensure compliance with OSHA, WHMIS and other global Hazard Communication Standards while protecting your companies proprietary information.

Employees can quickly Search for MSDSs 24/7/365 using three powerful search engines, view, print, save, email and fax MSDSs from any computer with internet access. In addition, HMIS and NFPA labels can be printed on demand without the need for preprinted labels or special software.

Administrators can easily set up organizations, users, upload hundreds of MSDSs at a time directly from their own database, edit MSDS info, archive MSDSs, generate numerous downloadable reports, create MSDS CDs and much more. No special hardware and software is required and Admins don't need any special IT knowledge or support to manage the Solution.

Hosted Online Safety Training Solution

This powerful user friendly Learning Management Solution (LMS) comes fully loaded with over 50 interactive safety and environmental courses that can used immediately to provide training required by OSHA, WHMIS and other safety training standards. Our comprehensive LMS offers an effective and easy way to deliver safety training across the entire enterprise while providing instant access to accurate safety training reports for workplace audits.

Employees can view all available safety and environmental courses, complete required courses, take quizzes and generate certificate of completions 24/7/365 from any computer with internet access.

Administrators can monitor employee safety training, view safety training reports and download Excel reports from any computer with internet access. No special hardware and software is required and Admins don't need any special IT knowledge or support to manage the Solution. Furthermore, since most required safety courses are readily available, Admins will not have to spend valuable time developing them.

Our Low Price- High Value Guarantee

We guarantee that our combined Online MSDS and Safety Training Management Solution offers more advanced features and benefits at a lower price than any other comparable solution. If you find a better overall deal anywhere, we will give you a FREE subscription on OnlimeMSDS.com or a FREE Safety Training CD with over 50 interactive courses!
