Online MSDS Management Made Simple for Less

Introducing OnlineMSDS.com

- **Secure Online MSDS Management Made Simple & Cost Effective**
- **Offers more features & benefits than any other comparable solution on the market today at a lower price**
- **Robust enough to manage many thousands of MSDSs yet easy to use with an intuitive & user friendly interface for both admins & users**

Online MSDS Management Advantages

- **Uses Software as a Service (SaaS) or Cloud model**
- **No special software, hardware or IT staff required**
- **All future upgrades automatically available at NO additional cost**
- **Available 24/7/365 globally via internet**
- **Secure environment**
- **Subscription based, pay as you go solution**
- **No risk, capital or long term commitments**

Conventional MSDS Software Disadvantages

- You pay the entire cost upfront
- You're responsible for installation & set-up
- You're responsible for backing up data & application
- Tech support is only available for an additional cost
- You have to purchase & install upgrades to insure that the application is current
- As your business grows you have to purchase and install additional servers to support growth

Hazcom Compliance Made Simple & Reliable

- **Start-up is simple with OnlineMSDS.com & you can be up and running within hours**
- **OnlineMSDS.com enables employees to reliably access required MSDSs 24/7/365 globally**
- **OnlineMSDS.com enables admins to archive obsolete MSDSs & comply with 30 year OSHA archiving regulations**
- **OnlineMSDS.com eliminates paper MSDSs & improves your efficiency to save valuable time & money**

Highest Security Level in the Industry!

- We have built the most secure online MSDS management system in the world!
- OnlineMSDS.com ensures that all MSDSs and related information reside in a secure environment and are only accessible to authorized employees
- OnlineMSDS.com enables you to selectively provide enterprise level material lists and information to employees in order to protect proprietary information
- Our exclusive permission-based, password protected technology gives you total control to manage multiple sites, locations & departments globally

OnlineMSDS.com Puts You in Total Control

- You have total control to instantly load, edit, delete & retrieve any MSDS at anytime from anywhere with a click of a mouse
- You can update your MSDSs quicker & easier than any other system & see results instantaneously
- Your database will only contain MSDSs that are specific to your company so you won't be inundated with obsolete MSDSs that slows access & results in compliance issues
- By managing your own system, you will be empowered to streamline & optimize it to rapidly deliver current MSDSs to ensure compliance & safety

OnlineMSDS.com Provides a Global Solution

- MSDSs can be loaded & searched by country so only country & language specific documents are found
- Multiple language MSDSs can be added to products
- Can be used simultaneously in multiple locations around the globe

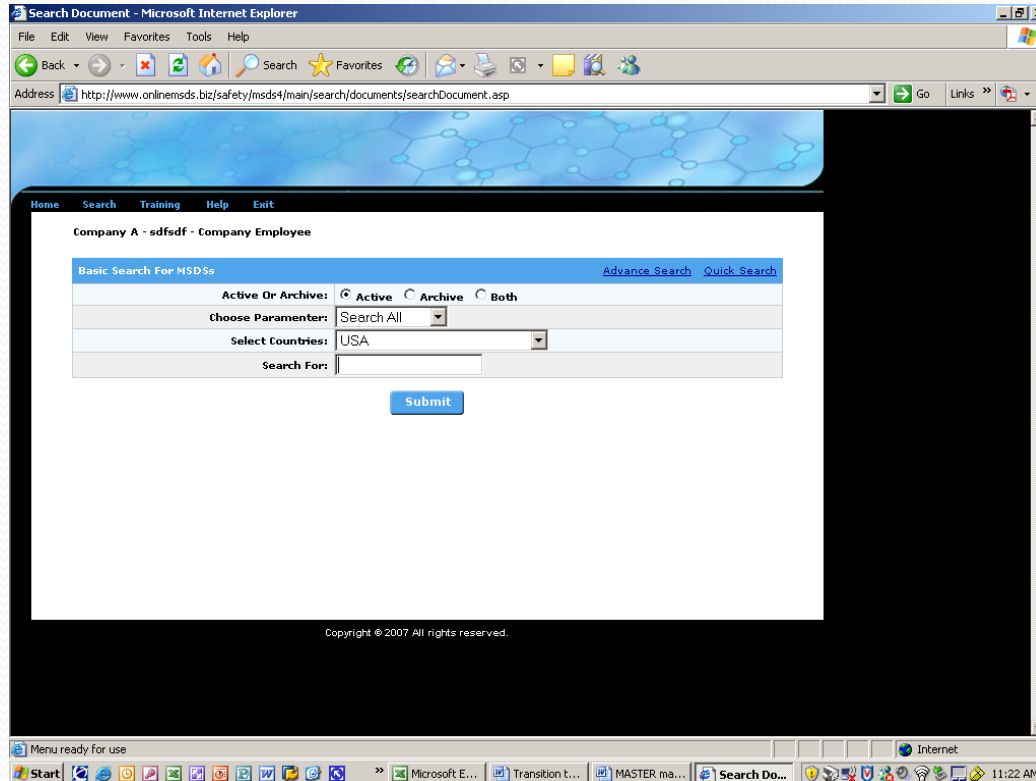

OnlineMSDS.com Users

 - Molecular Formula:** c6h12o2
 - Molecular Mas:** 101
- Hazard Summary Tables:**

TYPES OF HAZARD/EXPOSURE	ACUTE HAZARDS/SYMPTOMS	PREVENTION	FIRST AID/FIRE FIGHTING
FIRE	coughing	keep away from open flame	ABC extinguisher or water
EXPLOSION	n/a	n/a	n/a

7nbsp;

TYPES OF HAZARD/EXPOSURE	ACUTE HAZARDS/SYMPTOMS	PREVENTION	FIRST AID/FIRE FIGHTING
Inhalation		cover face with damp cloth	
Skin	n/a	n/a	n/a
Eyes	n/a	n/a	n/a
Ingestion	not hazardous, but not recommended	keep away from mouths	let it run it's course

Create HMIS Labels in Minutes!

The screenshot shows a web browser window with the address `http://localhost/msds/main/loadDocument/label2.asp`. The page displays four identical HMIS labels arranged in a 2x2 grid. Each label consists of three colored boxes representing hazard levels: a blue box for HEALTH (1), a red box for FLAMMABILITY (2), and a yellow box for REACTIVITY (4). Below these boxes is a white box for PERSONAL PROTECTION (0). A legend below each label defines the hazard levels: 0=Minimal hazard, 1=Slight hazard, 2=Moderate hazard, 3=Severe hazard, and 4=Extreme hazard. The browser's taskbar at the bottom shows various icons and the system clock at 11:31 AM.

OnlineMSDS.com Administrators

Document & Content Storage Flexibility

- No restriction to # MSDSs loaded with each product
- Can also load other content associated with each product
e.g. biocide certificates, kosher certificates, declarations of conformity, environmental statements, toxicological summaries, technical data sheets & product brochures
- Documents can be loaded in any format
- **Online MSDS online solution that allows you to load & manage videos to enhance safety & product info**

Product and Document Bulk Upload

- **Products & documents can be added individually or in bulk**
- **The ability to add hundreds of products quickly is a very powerful feature that saves tremendous amount of time and is unparalleled in the industry**
- **Products can also be easily classified as private or public and archived when desired**
- **Documents can also be loaded to a private or public library for sharing**

More than just an MSDS Management Solution!

Additional value added features significantly expands the tools online capabilities:

- Safety Summary
- MSDS Authoring
- VOC Tracking
- HAPS Tracking
- Inventory Tracking

Report Creation is Easy & Only a Click Away!

The screenshot shows a Microsoft Internet Explorer browser window displaying the 'Admin Report' page. The browser's address bar shows the URL: <http://www.onlinemsds.biz/safety/msds4/main/report/adminReport.asp>. The page has a navigation menu with options: Home, Search, Setup Orgs, Setup Users, Validated MSDSs, Unvalidated MSDSs, Info Upload, Reports, Training, Help, and Exit. The main content area shows a breadcrumb trail: Demo Company > DemoCompanyAdmin -- Company Admin. Below this, there is a table titled 'Admin Report' with 8 records. A dropdown menu is open over the table, listing various report types such as Admin Report, Employee Report, HAPs Report, HMIS Report, Inventory Report, Inventory Usage, MSDSs CD Creation, MSDS Report, NFPA Report, Training Facility Report, Training Name Report, Training User Report, User Activity, Vendor Report, and VOC Report. The table columns are Name, User Id, Phone, and Facility. The table data includes entries for Demo Company Admin, Demo Company Admin2, Demo Company Loc2 Admin3, Location 1 Admin, Location 1 Dept1 Admin, Location 1 Dept2 Admin, Location 1 Dept2 Admin 1, and Location 2 Admin. The table also shows dates for some records, such as 12/19/2006, 12/27/2006, and 12/15/2006. At the bottom of the table, there is a '# Records Displayed' dropdown and a 'Page: 1' indicator. A 'Download' button is located below the table.

Name	User Id	Phone	Facility
Demo Company Admin	Demo Company Admin		C: Demo Company
Demo Company Admin2	Demo Company Admin2		C: Demo Company
Demo Company Loc2 Admin3	Demo Company Loc2 Admin3		C: Demo Company L: Location 2
Location 1 Admin	Location 1 Admin		C: Demo Company L: Location 1
Location 1 Dept1 Admin	Location 1 Dept1 Admin		C: Demo Company L: Location 1 D: Location 1-Dept 2
Location 1 Dept2 Admin	Location 1 Dept2 Admin		C: Demo Company L: Location 1 D: Location 1-Dept 2
Location 1 Dept2 Admin 1	Location 1 Dept2 Admin 1		C: Demo Company L: Location 1 D: Location 1-Dept 2
Location 2 Admin	Location 2 Admin		C: Demo Company L: Location 2

Comprehensive Reporting Capability

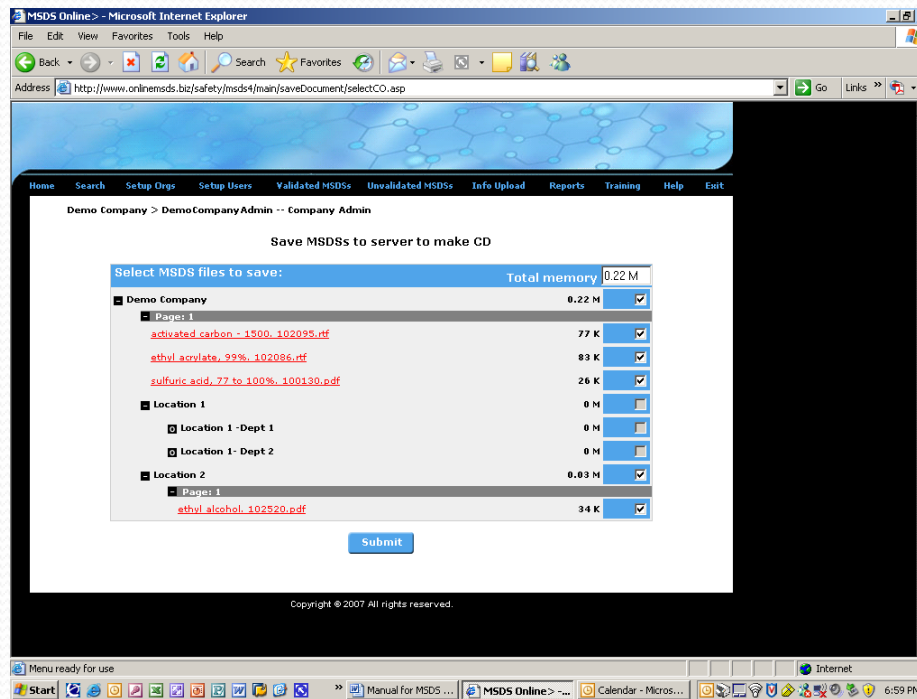

Numerous reports can be viewed and downloaded instantly to provide excellent data for admins:

- **MSDS Report**
- **Inventory Report**
- **HMIS/NFPA Report**
- **HAPS Report**
- **VOC Report**
- **Training Reports**
- **User Report**
- **Admin Report**

MSDS CD Creation

- Allows you to easily bulk download hundreds of MSDSs instantly to a CD or computer
- Ideal for emergency response personnel & back-up
